

Sadler's Wells Theatre

Client: City Square

Project Value:

Scope of Works

Foyer and Public Areas and Toilets Lighting Upgrade Works

Winters secured the contract to upgrade the lighting at Sadler's Wells theatre covering the public areas, foyer and toilet facilities. The contract had very demanding timescales, with only 6 weeks to complete a project that would normally take 10 to 12 weeks, and included the verification of the existing cabling and control systems, and upgrading of the lighting control, and replacement of the light fittings for more energy efficient options. The works were designed to give a new lease of life to the existing spaces by the re-colouring and resurfacing of some elements and by the relighting of the space using new LED and energy efficient sources.
