

BT Data Centre

Client:BT

Project Value:

Scope of Works

Electrical Essential and Non Essential Supplies

Winters were contract to undertake the upgrade to the main supplies, and the USP supplies to the data centre, which supply the racks and equipment. As a requirement for working in these high security and sensitive areas all our engineers and electricians working on this project were required to have Scotland Yard security clearance. Winters have also complete a number of projects in the high security data centre in Cardiff where our engineers have to be security cleared and use the Retina Recognition security entry system
