

The Little Boltons

London

Client: Kerven Brothers

Project Value: £55,000

Scope of Works

High specification refurbishment of a large residential property

The works consisted of the installation of a very high specification EIB home automation and Audio Visual systems. This provides full centralized control of the electrical, mechanical, audio, video and security services, and includes blinds and curtain control throughout the property. Winters were responsible for the design and installation of the electrical distribution, lighting and power, control systems wiring and mechanical supplies. Winters also installed feature garden lighting and external small power supplies. The electrical, mechanical and audio visual systems to this installation were in excess of
